GDC TANGMARG ORGANISED PROGRAMME ON GRAFTING TECHNIQUES IN APPLE

In continuation to earlier programme on Pruning and Grafting Techniques in Apple, Horticulture Club, Government Degree College Tangmarg in collaboration with Department of Botany of the college, organised training programme on grafting in Apple on 23/03/2024. A good number of students participated in the programme. At the outset, Dr. Gh. Hassan Rather, Coordinator Horticulture Club and Head Department of Botany, presented an elaborate account of grafting and its various types. Later, grafting of many wild apple trees present in a small apple orchard of the college campus, was done. Basharat Ahmad, student of BG 4th Semester who is trained in the art demonstrated the technique to other students. The students enthusiastically participated in the programme and themselves performed grafting of few trees.

The Principal GDC Tangmarg, Dr. Irfan ul Majid, appreciated the initiative not only because of its relevance to local needs but also due to its relevance under NEP-2020 which lays emphasis on skill-based education. At last, Coordinator Horticulture Club, thanked the Principal and all other participants of the programme.
